Normally, we have Growth Group prep questions here (to learn about Growth Groups visit www.revo.church/growth-groups), but Growth Groups are on a break for a little while. For now, go home and go deeper with these questions:

1. How long do you expect to live, and how many more months are you guaranteed to live?
 2. Will God be able to say this about anything in your life? "Yes, that was a big risk you took, not for yourself, but for me or for someone to know me."
If yes, what? And, how can you continue to take risks?
- If no, think hard about this next question: what risks can you take to honor God, and have a better eternitv?
